

Getting Started

Let's start your Cairo journey! There's a lot to learn, but every journey starts somewhere. In this chapter, we'll discuss:

- Installing Scarb, which is Cairo's build toolchain and package manager, on Linux, macOS, and Windows.
- Writing a program that prints `Hello, world!`.
- Using basic Scarb commands to create a project and execute a program.

Getting Help

If you have any questions about Starknet or Cairo, you can ask them in the [Starknet Discord server][discord]. The community is friendly and always willing to help.

[discord]: <https://discord.gg/starknet-community>

Interacting with the Cairo Chatbot

Cairo has its own chatbot, which can help you with Cairo-related questions. The chatbot is trained on the Cairo book, and uses RAG to efficiently retrieve information to provide help. You can find the chatbot on the [Cairo-Chatbot][cairo gpt] website.
